The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/526,668	Applicant(s) HEATLEY, EMMA JANE	
	Examiner BRYAN R. MULLER	Art Unit 3723	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 March 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

There are two groups of species in the application, the species groupings are as follows:

- a. Species Group 1 for the Hose retainer:
 - i. Species A represented by Figures 2, 3A, 3B, 9, 10 and 17.
 - ii. Species B represented by Figure 18.
 - iii. Species C represented by Figure 19.
 - iv. Species D represented by Figure 20.
 - v. Species E represented by Figures 21 and 22.
 - vi. Species F represented by Figure 23.
 - vii. Species G, not represented in the drawings but claimed in claim 8.
- b. Species Group 2 for the hose location device:
 - i. Species W represented by Figures 2, 11A and 11B.
 - ii. Species X represented by Figure 24.
 - iii. Species Y represented by Figure 25.
 - iv. Species Z represented by Figure 26.
 - v.

2. Applicant is required, in reply to this action, to elect a single species from each of groups 1 and 2 to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. The claims are deemed to correspond to the species listed above in the following manner:

- Claim 6 reads on Species A-F.
- Claim 7 reads on Species A-C, E and F.
- Claim 8 reads on Species G.
- Claim 9 reads on Species A, B and F.
- Claim 10 reads on Species A and C-F.
- Claim 11 reads on Species A and F.
- Claim 12 reads on Species A.
- Claim 13 reads on Species F.
- Claim 14 reads on Species A, C, D and F.
- Claim 15 reads on Species D.
- Claim 16 reads on Species F.
- Claim 17 reads on Species B
- Claim 18 reads on Species A.

The following claim(s) are generic:

- Claims 1-5 and 19 are generic to all Species.
- Claims 1-19 are generic to claims group 2, species W-Z.

Art Unit: 3723

4. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the concept of a guide configured to guiding a hose in a sinuous path around the periphery of a vacuum cleaner body is not considered to be novel, as is shown by U.S. Patents 5,787,546, 5,742,976, 4,910,828 and 5,836,046 for example. Thus, if considered to be novel over the prior art, the structure of the actual guide will be considered to be the novel special technical feature, wherein each of the structures is different for each species. Therefore, each species is considered to lack the same special technical feature.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
